Patient Comfort is the Key

Studies reveal that about 12% of MRI examinations are canceled because of patient anxiety surrounding long, confining imaging procedures. Stay miles ahead of the competition with this leading edge technology that puts patient comfort on the big screen with jumbo 47 inch 3D monitor!

MagnetVision Features Include:

- Giant 47" viewing screen
- 1920 x 1080 resolution, viewing full HDTV 1080P
- Contrast ratio of 4,000,000: 1
- MRI-safe device
- 2D and 3D compatible viewing screen
- Easy patient set up

MagnetVision

Astonishing 3D Cinema Technology

With MagnetVision, your patients can completely forget about their surroundings as they become completely absorbed in watching life-like 3D entertainment. By offering stress-free comfort and relaxation to your patients, you are creating a unique competitive advantage for your MRI facility.

Seeing is Believing!

MagnetVision's new technology brings images to life with photographic realism you can almost reach out and touch while in the MRI bore. It's unlike any other product available today in the MRI-industry!

- Bring astonishing 3D entertainment to life during MRI procedures.
- Overcome patient anxiety and claustrophobia
- Increase productivity by completing more exams in one day
- Eliminate appointment cancellations
- Reduce patient sedation and increase patient comfort
- Engage patients and build loyalty to your facility
- Generate more referrals from your patients

Eliminate appointment cancellations and sedation as patients enjoy a stunning sound and visual experience. With LaserLink technology, installation is just a matter of minutes. No additional cable fibers or filters are necessary. And, patient set-up is quick and simple. Treat your patients to the highest quality entertainment experience and create a competitive advantage for your MRI facility!
